

Niobrara Valley Prescribed Fire Association

Our Mission

The Niobrara Valley Prescribed Fire Association supports the safe and effective use of prescribed fire by private landowners within the Niobrara River drainage area of Nebraska. The corporation will pursue its mission by:

- Conducting classroom and field training in the use of prescribed fire;
- Promoting an understanding of fire as a range management tool among the citizens and leaders of the region; and
- Making the specialized tools and equipment required for prescribed burning more accessible to private landowners of the region.
